

WILEY

Why Publish with Wiley Engineering?

Publishing a book with Wiley Engineering comes with many benefits. You're not just getting a book published, but you're also getting:

Access to world-class editors, marketers, and product designers.

A robust support network of publishing professionals.

Worldwide marketing capabilities.

The respectability of the Wiley brand, backed by a 200-year heritage in publishing.

The help of several partnerships, such as IEEE, ASME, INCOSE, and ISTE.

And the benefits don't stop there. When you become a published author and share your research broadly, you:

Demonstrate thought leadership.

Gain recognition of your expertise.

Reach, inform, and influence students and professionals.

Inspire others in your field (or inspire them to enter your field).

Assist others with solving their problems.

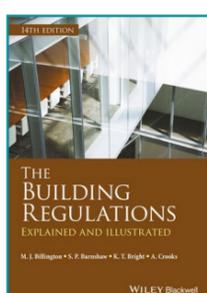

Open new career paths for yourself.

In other words, publishing your book with Wiley means you will have a wealth of world-class resources available to ensure it is a success, that it does all the great things a book can do, and that it is also an effort that will enrich your own career.

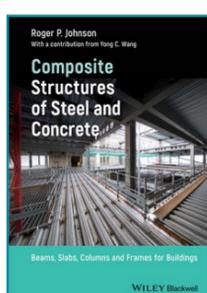

Take a look at some of our best titles in Wiley Engineering and see for yourself the breadth and quality of expertise we have in the business of publishing.

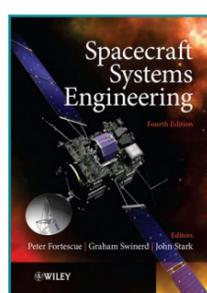

Code of Practice for Project Management for Construction and Development, 5th Edition
The Chartered Institute of Building 9781118378083

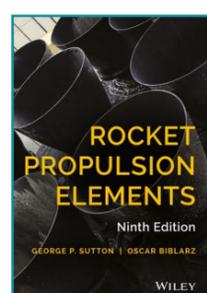

The Building Regulations: Explained and Illustrated, 14th Edition
M. J. Billington, S. P. Barnshaw, K. T. Bright, and A. Crooks 9781405195027

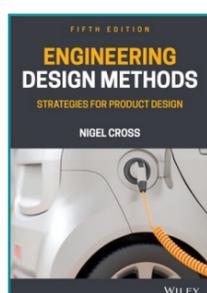

Composite Structures of Steel and Concrete, 4th Edition
Roger P. Johnson and Yong C. Wang (contributions by) 9781119401438

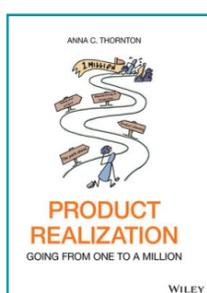

Spacecraft Systems Engineering
Peter Fortescue (Editor), Graham Swinerd (Editor), and John Stark (Editor) 9780470750124

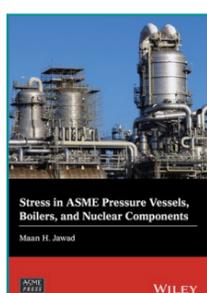

Rocket Propulsion Elements
George P. Sutton and Oscar Biblarz 9781118753651

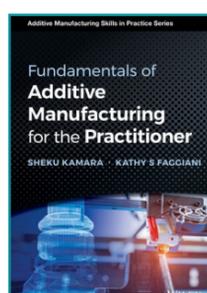

Engineering Design Methods
Nigel Cross 9781119724377

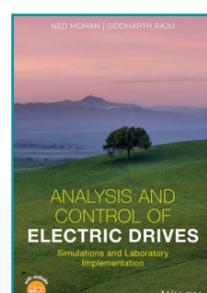

Product Realization
Anna C. Thornton 9781119649533

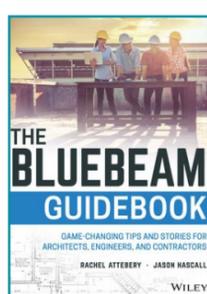

Stress in ASME Pressure Vessels, Boilers, and Nuclear Components
Muhammad H. Jawad 9781119259282

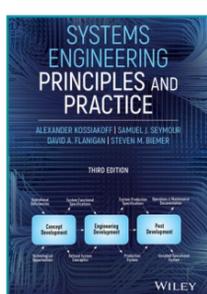

Fundamentals of Additive Manufacturing for the Practitioner
Sheku Kamara and Kathy S. Faggiani 9781119750383

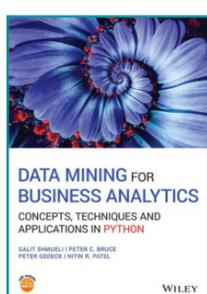

Analysis and Control of Electric Drives: Simulations and Laboratory Implementation
Ned Mohan and Siddharth Raju 9781119584551

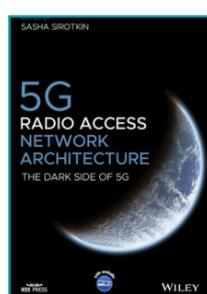

The Bluebeam Guidebook: Game-Changing Tips and Stories for Architects, Engineers, and Contractors
Rachel Attebery and Jason Hascall 9781119393955

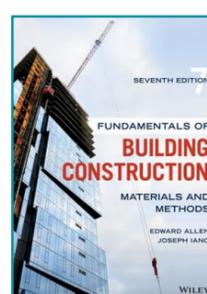

Systems Engineering Principles and Practice, 3rd Edition
Alexander Kossiakoff, Steven M. Biemer, Samuel J. Seymour, and David A. Flanigan 9781119516705

Data Mining for Business Analytics: Concepts, Techniques, and Applications in Python
Galit Shmueli, Peter C. Bruce, Nitin R. Patel, and Galit Shmueli 9781119549864

5G Radio Access Network Architecture: The Dark Side of 5G
Sasha Sirotkin (Editor) 9781119550914

Fundamentals of Building Construction: Materials and Methods, 7th Edition
Edward Allen and Joseph Iano 9781119450252

How to Get Published in Engineering at Wiley

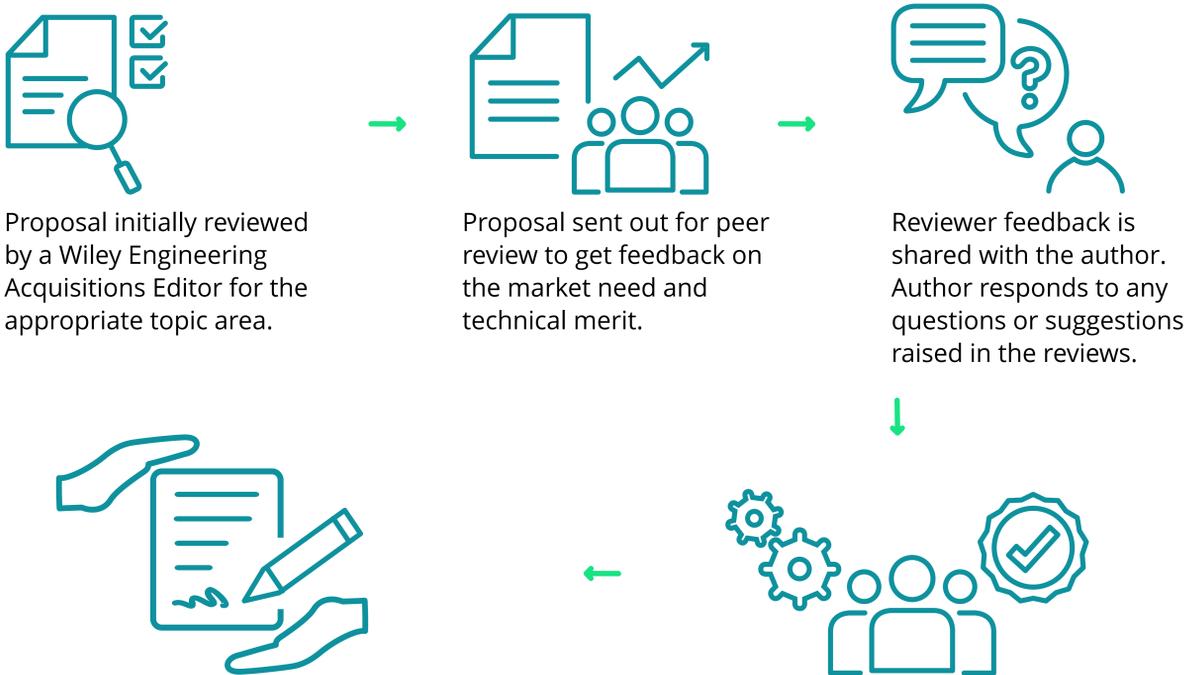

1 Prepare your book proposal.

Key info to include in a book proposal:

2 Proposal Submission/Evaluation

3 Publishing Contract Offered

Wiley's publishing agreements align with industry standards for technical and academic publishing. Agreements define the publication, how and when it will be delivered, outlines your and Wiley's rights and responsibilities, and establishes compensation.

If the reviews are favorable to publication, the Engineering Acquisitions Editor will then present the proposal for the project to Wiley's publishing committee. This is an internal review during which Wiley's editorial management, sales, and marketing can weigh in on the project and issue formal approval to publish a project.

After the contract is offered, production begins. You'll prepare the text, create or compile all the figures and tables, and obtain any necessary permissions for third-party materials.

4 Manuscript Development

Author prepares the text, creates/compiles all figures and tables, and obtains permissions for third-party materials.

5 Production Stage

- a. Copyediting
- b. Typesetting/Proofreading
- c. Indexing
